

# RETRETTI BENCH

Design: Raimo Räsänen

Material: Kerto® wood

The Retretti series was initially designed for the Retretti Art Center located in Eastern Finland. The series includes a bench in three sizes and a table in three lengths. Retretti bench blends into the surrounding environment, making the bench suitable for many kinds of spaces and contexts. The bench's sleek design is reminiscent of the undulation on the surface of Lake Saimaa.
